

Thermal laminating machine mod. SYNERGY EVOLUTION 76

DESCRIPTION	U.M	76
MAX SHEET SIZE	Cm	76X104
MIN SHEET SIZE	Cm	21X21(25)
L	Cm	465
MACHINE WIDTH	Cm	190
MAX SPEED	Mt/Min	60

- Laminating machine for thermo-adhesive film (DRY) compact ideal for business printing and finishing autonomous
- Smallest footprint
- System simple and fast installation
- Extremely easy to use
- Machines versatile flexible and easy to use

STANDARD EQUIPMENT
• Automatic feeder
• Electronic overlap control
• Heated calander by thermal oil heater
• Temperature sensor control
• Rubber roller pneumatic pression control
• Automatic coil elevator
• Curling control system
• Automatic separator.
• Automatic stacker

OPTIONAL
• Thermal knife for polyester
• Cooler system in line
